Lens Holders

Applications using dark color PAR-38s 150 watts and over, and dark color 75 watt PAR-30s should use color lens holders for best results. PAR lens holders are finished in durable black powder coat.

Special FX® also carries versatile MR-16 lens holders which clip directly on the lamp.

Applications

MR-11, MR-16, PAR 20, 30 and 38 Lamps

Specifying FX Lens holders

Specify bulb type, fixture, wattage and beam spread. Special FX will write the specification for use in your project.

Order Lead-time

Lead-time is subject to order quantity.
Standard lead-time is four weeks.
